

# Internship Studio

## Ethical Hacking Internship

Name - Aryan Sharma

### Task - 3

For this task also you have to create a presentation, the ppt should contain your report, POC video and screenshot.

Tools Used - Cross Site Scripting (XSS)

**Cross-Site Scripting (XSS)** attacks are a type of injection, in which malicious scripts are injected into otherwise benign and trusted websites.

Procedure -

Step 1: Visit <http://testasp.vulnweb.com/> and search if you can find any search/login or an input where you can cross script.

Step 2: On the top menu you can find a search option.

Step 3: Click on it and you will be redirected to search box of the website.

Step 4: You can intercept the request in Burp Suite

Step 5: Now you can find different payloads for XSS such as i used `"',a=prompt,a()//`.

Step 6: Prepare a report for it.

Result - The XSS payload was executed and was successful.

Screenshots -
